Diamonds Allan Creech Appears On Murder Charge.

LEFT BREATHITT THREE YEARS AGO WITHOUT A CENT.

BEECH HARGIS' CASE DELAYED UNTIL MONDAY.

MURDER TRIALS AT JACKSON.

Jackson, Ky., May 29.—[Special.]—The trial of the case against Allan Creech, charged with the willful murder of Charlie Robinson nearly three years ago, was begun in the Breathitt Circuit Court today. The case was delayed for three years by Creech's flight to West Virginia, where he seems to have prospered. At the time of the killing of Robinson, Creech was only 16 years old, only a young mountaineer of the roughest sort in both dress and disposition. When he appeared in court today he was elegantly dressed and wore two large diamonds. This case will probably consume the time of the court to-morrow, and neither the Ed Mullins nor the Beech Hargis murder trials will begin until Monday.

Another trial set for to-morrow is that of the Commonwealth against Dan Duff, charged with the murder of Miss Grigsby. After Grigsby was desperately wounded his father undertook to float down the Kentucky River with his shot-riddled boy in a small boat to the central part of the State for surgical aid, that being the most comfortable means of transportation, but young Grigsby died on the way. The trial of this case will probably be continued.

London, Ky., May 29.—[Special.]—The hearing of the case of David Vaughn against the Woman's Home Mission Society of the M. E. church, South End, J. C. Lewis, principal of the Sun Belt Memorial School for \$5,000 damages was brought to an abrupt halt by the court today. The court gave summary judgment in favor of the defendants.

While working at a machine in the brick factory operated by the school, mainly to give employment to pupils who desired to work their way through school, Vaughn was injured. He is only 16 years old, had the misfortune to get his hand severely injured. Two fingers were lost and another crippled. In substance, the court held that a charitable society, conducting without profit, an educational institution, is not liable for damages resulting from an accidental injury. The case will be taken to the court of appeals.

Immediately after the Senate met Mr. Aldrich moved to dispense with the reading of the bill, and then agreed to a motion by Mr. Dewey to take up the Government employees' bill.

Mr. Aldrich seemed willing to have some other business disposed of before taking up the currency measure, and Mr. Beveridge of Indiana, attempted to obtain an agreement to vote on the bill for the publicity of campaign contributions.

Mr. Aldrich referred to the failure of the Committee on Privileges and Elections to report the session, and in so doing called out a sharp rebuke from Senator Burrows, who is chairman of that committee.

Culberson Chides Majority.

When ultimately the currency report was taken up, Vice President Fairbanks called for the ayes and noes on the adoption of the report, there was a majority of ayes.

GRAIN LETTERS.

Chicago.—Kansas City dispatches say that notices of shipments indicate a larger movement to that market. St. Louis late in the day claimed that weather indications were bet-

ter. The Modern Mixer claims a bumper crop for Indiana, 20,000,000 bushels more than last year for Kansas, and a good big yield is promised in nearly all sections. A change to bright warm weather in the Northwest makes condi-

...duns about perfect that quarter on both
sides of the Canadian line. Regardless of this
barrier coloring of crop news the new crop
months in this market are 1½ to 1¾, under
foreign prices, and this makes short selling

on a decline like that of the past two days
unwitting. Prices for July and September
corn covered a range of about 1c for the day,
the market acting in a very natural way, and
the close was about the same as Thursday's

prices. There is a much smaller estimate of 157 cars for Monday. The future of the corn market will depend very much on the weather early next week.—(Logan & Bryan to W. L. Jacobs & Co.)

Chicago.—The barish influences to-day were based on good rains in Southern Europe, lower foreign cables and more favorable weather and crop reports in most of this country. The

world's shipments are expected to make a very bullish showing on Monday, being estimated at about 6,400,000 bushels. Advances from both the North and Southwest were to the effect that the movement from now on will show

a material decrease. We can see nothing in
 the situation to warrant any further setback,
 therefore believe wheat should again prove a
 purchase. With May deals out of the way
 we are rather inclined to believe that coarse

Chicago.—Crow news to-day was less bullish. Clearing weather in the Northwest made it

perfect. The Modern Miller says Kansas will produce 20,000,000 bushels over last year, with almost bumper crops elsewhere, and Indiana a great promise. Kansas City wires that receipts will be larger. Minneapolis cuts stocks

hard, country mills, drying wheat May over July up there. Much will depend on the weather for the next forty-eight hours. The feeling in the new crop months is too bearish to last. Corn receipts will fall off now. Cash

corn will make the distant months look good to buyers for the long pull. Remember that some sections are only half planted and the fields flooded. There will be a fight with weeds in late corn. The country will see the

new crop well started for selling receive,—
